TO WHOMSOEVER IT MAY CONCERN

We have recently installed one number **ecopower** EP 600 Hybrid Ventilator supplied by M/s Sudha Ventilating Systems Pvt Limited on our ventilation duct. This duct is open to the following due to location of windows

- Toilets
- Patient Rooms
- Common Waiting Room

Before installation of the **ecopower** EP600 ventilator, we were facing continuous problem of unpleasant smell in the above rooms due to the closed ventilation duct. However, after installation of the ventilator, we are pleased to note the following

1. Complete absence of unpleasant smell which was present earlier.
2. Absence of any noise from the ventilator
3. Power consumption of just 100 Watt by the ventilator.

We are completely satisfied with the performance of the product and are ready to buy the same again if the need arises.
